SERVICES.WORKFLOW — WHAT I BUILD FOR CLIENTS, END TO END

● AI Automation

- Business process automation
- AI agents as virtual employees
- Chatbots — web, Facebook & more

● Web Development

- Websites & web applications
- UI/UX design
- WordPress & secure development

● Digital Marketing

- SEO & paid advertising
- Social media management
- Lead generation & content

■ PROFILE

Computer Science graduate and founder of **AH Digital Services**, a remote agency delivering AI automation, web development, and digital marketing to global clients. I design **AI agents and chatbots that automate real business workflows**, pairing hands-on engineering with results-driven marketing — and manage every engagement from scoping to ongoing support.

■ EXPERIENCE

Founder & CEO — **AH Digital Services** 2024 — present · remote

- Design and deploy **end-to-end AI automation systems** that let clients run entire parts of their business through AI.
- Build **custom AI agents for individual job roles** that operate like virtual employees, absorbing repetitive, rules-based work.
- Develop AI chatbots for websites and Facebook Pages covering client support, lead capture, and FAQs.
- Run digital marketing campaigns — SEO, paid ads, and social media — generating leads for international clients.
- Ship modern, secure, responsive websites and web apps for startups and SMEs.
- Own the full client lifecycle: scoping, delivery, reporting, and ongoing support.

UI & UX Intern — **Rhombix Technologies** aug — oct 2025 · remote

- Completed a 3-month remote internship embedded with the design team, contributing to real project deliverables.
- Earned a formal **Letter of Recommendation from the Founder & CEO** for initiative and professionalism.

■ HOW AN ENGAGEMENT RUNS

01	02	03	04
Scope	Build	Deploy	Support
Map the workflow & agree deliverables.	Build agents, chatbots, sites & campaigns.	Ship to production on the client's channels.	Report results, keep automations improving.
